

## Student Support in the Learning Lab of the JCLC

2018-19

**Learning Lab Coordinator/ Academic Specialist:** Karen Smith

### Services Offered:

- Small Group/Individual Testing for students with small group/individual testing accommodation as stated on their accommodation plans.
- Oral Testing for students with that accommodation stated on their plans.
- Administration of make-up tests
- Small Group Leveled Literacy Intervention
- Small Group Content Mastery Support
- Before School Student Support
- Teacher support for K-2 Balanced Literacy Program

### Small Group/Individual Testing:

Students with an accommodation for **small group/individual testing and/or oral testing** will complete their tests in a focused, smaller environment with Pam Schulte in the JCLC.

### Small Group Leveled Literacy Intervention:

Students needing extra support in reading can come and work in a small group for reading intervention. These students are identified by a team including the classroom teacher, language therapists, and the learning lab coordinator. They visit during their reading time and work on skills to support their success in the classroom. The Fountas & Pinnell Leveled Literacy Intervention Program provides support for these identified students from K-5 and is taught by Karen Smith. The LLI program directly supports and mirrors the K-2 balanced literacy program.

### Small Group Content Mastery Support:

Students in grades K-8 can receive help in different content areas based on teacher request and an as needed basis. Students do not need to be identified with any learning difference for this service.

### Before School Student Support:

The Learning Lab is open at **7:30 am** until the **7:55 am** bell for before school support. Students K-8 may come to the learning lab any morning for extra help, to use iPads, complete projects, or just to have a place to organize for the day.
